Notice of Non-Responsive Amendment – Impermissible Shift

The amendment filed on 3/14/2007 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because:

Originally elected claims 1-14 represent an interface for inputting closing cost conditions. Independent claim 1 includes a browser presented template of components to create one or more custom closing conditions, whereas newly presented claim 17 merely includes selectable standard and custom closing conditions. Additionally, claim 17 includes both a title insurance module correlated with the closing database comprising a plurality of title insurance companies and title insurance policies, as well as a county registrar module for electronically recording the real estate deed.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
